## REPORT OF THE TRUSTEES OF NICHOLS' MEMORIAL LIBRARY.

The year, in the affairs of the Library, has been marked by changes. Mrs. Rosa Berry, who entered upon the work of the Librarian the year before, not caring to continue, the duties were assumed during the summer by Miss Grace Bradley, to the satisfaction of all concerned.

On the return of Miss Bradley to Boston in the fall, Miss Ruth M. Webster was installed in the position, and she has administered the affairs of the Library in a creditable way.

A notable loss has been the decease of Walter S. Clark, who for a period of twenty years, served as Library Treasurer. The Trustees desire to express at this time their appreciation for the willingness and fidelity with which this service was rendered, and their regret that the pleasant business association had to end.

We are glad to record that most of the needed repairs and improvements about the Library building have been made. An electric light has been placed over the entrance steps, the masonry near the steps has been rebuilt, the wood-work has been treated with a protecting dressing and the vines, which seemed to be thriving at the expense of the building, have been removed. Though the vines have no doubt been missed, all must feel that they can be spared here in the midst of green grass and shrubbery and trees much better than they could were the surroundings, as in the case often in cities, stone and brick. There are those, too, who think the stone work is too beautiful to be covered up.

The Trustees are glad to acknowledge a gift of three desirable volumes from the Helping Hand Club and to return thanks for the same.

We recommend the usual appropriation of \$100 for the coming year.

# REPORT OF SUPERINTENDENT OF SCHOOLS

---

February 7, 1924.

*To the School Board and Citizens of Kingston:*

This is my fourth annual report and is for the year beginning July 1, 1922 and ending June 30, 1923, although parts of the report extend into the present year.

## 1846 COMPARED WITH 1923.

A complete set of examination papers has been discovered which were given in 1846 to all ninth grade pupils in Springfield, Mass., in arithmetic and spelling. In November, 1923, our eighth grade pupils were given the same arithmetic test and an equivalent spelling test. The results were as follows:

Average scores in arithmetic and spelling

1846	35%	1923	66%
------	-----	------	-----

The age and grade of these pupils were as follows:

Springfield, 1846	Kingston, 1923
Grade 9	Grade 8
Age 15½	Age 13¼

## THREE YEARS OF PROGRESS IN THE KINGSTON SCHOOLS.

We have been giving standard tests in our schools for three years now, and by them it is easy to show accurately the progress made in the various subjects. A few typical figures are given for the upper grades. The arithmetic shows the number of problems in fractions solved correctly for Type O of the Cleveland Tests; letter writing the number of errors per 100 words; language shows the number of sentences rightly corrected from Charter's Diagnostic Language Test, Misc. B.

*Arithmetic*

Gain of 47%

<i>Feb. 1921</i>	<i>Feb. 1924</i>
VIII 6.1	VIII 10
VII 4	VII 6
VI 2.8	VI 3

*Letter Writing*

No Gain Shown

VIII 12	VIII 16
VII 21	VII 18
VI 14	VI 13

*Language*

Gain of 47%

VIII 14	VIII 29
VII 20	VII 24
VI 19	VI 25

The average gain in efficiency shown by the above is 31%. The improvement was greatest in West and South Kingston. This gain in efficiency will continue in the future until the percent of gain will totally eclipse the increase in school costs.

**FIVE YEARS OF PROGRESS IN THE STATE.**

The figures given here will indicate the progress that has been made throughout the State during the past five years.

**1919 1923**

12,087	17,023	Number of pupils attending high schools.
290	617	Students going to Keene and Plymouth Normal Schools.
188	513	Teachers attending summer schools to improve.
24	36	Number of weeks of school in a year in poor towns.

91      93 Percentage of attendance.  
 140      180 Midyear changes in teachers.  
 41%      70% Efficiency of rural schools compared with  
                     city schools.

Therefore: 41% more pupils go to high school.

142% more teachers are receiving training.

50% longer school year is given in poor towns.

2% This is the increase in percentage of at-  
                     tendance.

67% of the mid-year changes in teachers have  
                     been eliminated.

70% Rural schools are this much nearer equal  
                     to city schools.

And in spite of these great gains, school costs have but  
 kept pace with the increased cost of living, and this would  
 have been equally true under earlier laws.

Only eight other states have as small a state tax for edu-  
 cation as does New Hampshire.

#### A TRAINED TEACHER IN EVERY SCHOOL.

“A trained teacher in every school” is a slogan much heard  
 now-a-days. For the first time in history the town of King-  
 ston has a trained teacher, a normal graduate, in every  
 school for this present year.

#### STATISTICS BELOW.

2. Honor roll of perfect attendance.
3. Transportation routes.
4. Staff of teachers.
5. Graduates of 1923.
6. Health supervision.
